SMOOTH FEET NO FOOT RASP

No more filing thanks to this solution enhanced with chelidonium, a plant renowned for being able to cure warts. How is it used?

It is extremely simple: apply liberally to problem areas, wait 15 minutes and presto! All you have to do is remove the dead skin. To be used once or twice monthly. And, to top things off, use a moisturising cream daily. For tootsies in top form. Lotion and moisturising cream **MARLAY**, available at chemists, drug stores and www.marlaycosmetics.com
